

School for Experiential Education

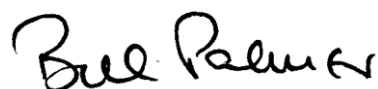

Teaching Body Intelligence

14th February 2011

Annette Bungers has translated for me twice, at the ESI Heidelberg in 2010 and at the Schule für Shiatsu Hamburg in 2011. I have found her very easy to work with. She is a brilliant simultaneous translator, so I can listen to what the participants say without interrupting their flow.

She is also excellent at transmitting the energy and meaning of what I say as well as the intellectual content. I feel confident that the students really hear what I mean. On top of her skills as a translator, she has a good knowledge of both Shiatsu and anatomy, having trained as both a Shiatsu therapist and as a physiotherapist. This is valuable to me because I often use language special to Oriental medicine and anatomy in my classes.

Annette is diligent, open and fun to work with and I recommend her highly.
